

Company Profile

Today, Longcane's manufacturing network has expanded even to China and Indonesia. We are planning to produce specialized gloves for handling animals and pets. Gloves useful for farmers and veterenarians who need especially longer gloves to cover and protect their hands. Other Longcane's plans in the near future includes manufacturing medical and surgical gloves that are highly demanded. Added feature gloves are also in our future product pipeline. Added feature such as sponge will be glued to gloves and these gloves will be useful for washing plates.
